UPPER LIMB

Minimally invasive approach for clavicular fractures 35

Radial metaphyseal core decompression and stable fixation of proximal pole scaphoid nonunion without osteonecrosis 46

Mangled upper extremity. Case report 63

Antibiotic cement rod to control infection in infected humerus nonunion 90

Diagnosis and treatment incidence of osteoporosis in patients with distal radius fractures 99

Chronic compartment syndrome of the forearm treated with minimally invasive fasciotomy: A Case Report 143

Traumatic injury of the axillary nerve identified after rotator cuff repair 265

Double crush syndrome of the median nerve in the arm: A critical review of the literature 427

Internal fixation of olecranon fractures using tension band wiring and high resistance suture materials 342

Conservative vs. surgical management of ulnar styloid fractures associated with distal radius fractures 353

LOWER LIMB

Bone lengthening with external mini-fixator as treatment for brachymetatarsals 8

Anterior tibial tubercle osteotomy in adolescents and young adults: functional results and complications 27

Use of dual mobility acetabular cups for isolated femoral revision of metal on metal hip resurfacing arthroplasty using larger femoral heads 55

Total hip replacement with a short cementless stem type 2B: Results of 2 to 5 years of follow-up 112

Registry of intra-articular hyaluronic acid in the treatment of knee osteoarthritis in Argentina 122

Ankle fractures in elderly and old people 129

Use of Ilizarov method for the treatment of post-traumatic deformity and discrepancies of the tibia 136

Venous plantar plexuses. Clinical-surgical implications 155

Anterior ankle arthroscopy. Early complications without joint distraction 236

Posterior tibial artery perforator flaps: Case series 242

A prophylaxis algorithm for deep vein thrombosis in ankle and foot surgery 252

Failed internal fixation of intertrochanteric hip fractures with dynamic hip screws 328

Comparison of three treatment regimens for plantar fasciitis 336

A comparison of the transtibial single-tunnel vs. the anatomical double-tunnel technique for the reconstruction of the anterior cruciate ligament 361

SPINE

Spinal cord decompression by minimally invasive transthoracic lateral approach. Case report 70

Use of interspinous process devices in primary lumbar discectomy. Does it promote recurrent disc herniation? 105

Incidence of X-ray exposure in spinal surgery 208
